

## **St. Augustine School Strategic Plan for Development**

In June of 2009, the parents, faculty, alumni and parishioners of St. Augustine School began to develop a Strategic Plan for Development (SPD). The purpose of the SPD is to help ensure that St. Augustine School continues to provide academic excellence in a faith based and nurturing environment for many years to come. In fact, St. Augustine's School was recently in the top 10% of all schools, public and private, in New York State – the only school in Rockland County to claim this.

For nearly 50 years our graduates have gone on to become successful, compassionate, intelligent and responsible citizens. We are proud of our accomplishments and are working hard to ensure that we continue these traditions for many years to come.

The SPD was finalized in June 2010 and includes over 100 initiatives under seven core strategic objectives including:

- Communications
- Revenue & Resource Development
- Attracting & Retaining Students
- Involving people in our mission
- Development
- Alumni Relations
- Collaboration with the parish

Before the Plan was even finished, we began to implement many important initiatives but we have many more to work on. We all have an important role to play in our strategic planning effort- parents, faculty, alumni and parishioners alike.

If you would like to learn more about the SPD or can help in any way, please contact Beth Rooney at 364-0443 or [info@saintaugustineparishschool.com](mailto:info@saintaugustineparishschool.com).
